

Printable Pain Log Sheet

The lowest-friction pain log in the set. Fast enough for the bedside, the fridge, or the bad day.

Routing Note

- Need:** This is the simplest tool in the set. Fast enough for the fridge, the bedside, the bag, the bad day.
- Tool:** Use it when all you can manage is the essentials and the important thing is not losing the record entirely.
- Rule:** Minimal is fine. No record is the real problem.
