

Pain Diary for Specialist Appointment

A specialist-ready record for the consult where pattern, history, and limits all need to survive compression.

Routing Note

Need: Specialist visits are short, expensive, and easy to lose the thread inside. This sheet helps you arrive with a sharper route through the noise.

Tool: Use it before rheumatology, neurology, pain clinic, gynecology, or any consult where pattern and history both need to survive compression.

Rule: Lead with the pattern, the main limit, and the question that cannot be allowed to disappear.

Specialist: _____

Specialty: _____

Appointment Date: _____

Referred by: _____

Pain Scale Reference (0–10 NRS)

Pre-Appointment 7-Day Log

Day	Pain (0-10)	Location	Type	Duration	Medications	Function Level
