

CRPS Pain Diary Template

A CRPS record for burning pain, allodynia, swelling, colour, temperature, and motor change on the same page.

Routing Note

- Need:** CRPS can turn a limb into an argument between pain, colour, temperature, swelling, and movement. This sheet keeps the argument visible.
- Tool:** Use it to document sensory, autonomic, and motor changes together instead of scattering them across separate notes.
- Rule:** Record the visible changes and the invisible ones. Both belong in the file.

Name: _____

Date Range: _____

Pain Scale Reference (0–10 NRS)

CRPS Daily Record

CRPS shifts across pain, sensory change, autonomic change, and motor fallout. Track all four on the same day.

Date	Pain (0-10)	Burning	Allodynia	Swelling	Color Changes	Temp Changes	Sweating

Motor Breakdown and Function Loss

Date	Weakness	Tremor	Stiffness	Range of Motion	Dystonia	Grip	Walking

Date	Weakness	Tremor	Stiffness	Range of Motion	Dystonia	Grip	Walking

Affected vs Unaffected Side

Compare sides when visible changes show up. Colour, temperature, swelling, and nail or hair shifts belong in the record.

Date	Side	Color	Temperature	Swelling	Hair/Nail Changes	Notes

Treatment response and specialist notes
